hot blood flows and mingles.

keg, churn, bucket, or other wooden vessel, will ou your fruit. After dinner you may take a siescommunicate a disagreeable taste to anything that is put into it. To prevent this inconvenience, scald the vessel well with boiling water, letting the water remain in it until cold; then dissolve some pearlash or soda in luke-warm water, adding a little lime to it; wash the inside of the vessel well as you will feel when you go to your business with this solution. Afterward scald it well with hot water, and rinse with cold water before you use it. The reason for this is the ready combination of resinous matter with alkalies to form compounds soluble in alcohol.

a muss with a Texas editor. It appears that in the air four or five feet, or leap over the boundsan agricultural essay on the culture of tobacco, ry fence and back, and laugh aloud. At supper Mr. Greeley asserted that fine cut would not rip- it is best for you to cut nothing, except your own en well unless the tin foil was stripped from the growing bads early in the Spring, and that pieg tobacco ought to be knocked off the trees with clubs instead of being picked by hand. This the Texas Editor said was nonzense, and Mr. Greetley challenged him.

The Milk Cure.

Some of our physicians have discovered, or borrowed, a new mode of cure lately. Whatever to my office fourteen times in one morning to see his disease, the patient is put upon a diet solely if he could not persuade me to take out a life of milk. All kinds of nutriment belonging to insurance policy in his company. He used to maturer nourishment are absolutely forsworn, and waylay me on the street, at church, in my own the body goes back to its primal nourishment; house, and bore me about that policy. If I went and, consequently, it is claimed, is born again to the opera, Gunn would buy the seat next to into fresh strength and beauty. A certain Jerme, and sit there the whole evening, talking seyman, who, in prosecution of this plan, drank about sudden death and the advantages of the over 400 gallons of buttermilk in the last year, ten-year plan. If I got into a street car, Gunn is reported to have risen a young Autinous from would come rushing in at the next corner, and sit his grosser self, like the engle which renews her by my side and drag out a lot of mortality tables, youth. Now, why not carry out the principle and begin to explain how I could beat his com- into manners and morals? What if the milk puny out of a fortune. If I sat down to a dinner cure was tried at Washington, and our legislators at a restaurant, up would come Gunn, and, seizing modeled their deliberations for a week or two the chair next to me, he would tell a cheering after the fushion of ignorant savages? "The anecdote about a man who insured in his com- aborigines," says Hildreth, "though subject to pany for \$50,000 only last week, and was buried | violent rosts of passion, were, on all public occayesterday. If I attended the faneral of a de- sions, a grave, reserved aspect, and exercised a parted friend, and wept as they threw the earth strict command over their feelings with a dignity upon his coffin, I would hear a whisper, and and decorum akin to that of the ancient Greeks, turning around, there would be the indomitable In their councils, precedence and the most Benjamin P. Gunn, bursting to say: "Poor marked deference were given to seniority, al-Smith! Knew him well. Insured for ten though a grave respect was paid to the words of thousand in our company. Let me take your even the youngest and the most insignificant." The barbarous chiefs had not learned how to He followed me everywhere; until at last I got drown the voice of a speaker opposed to them so sick of Gunn's persecutions that I left town by nodding their heads together with forced suddenly, and hid myself in a secluded country cackle of gossip and laughter; did not greet willage, hoping to get rid of him. At the end of each other in the grand council of the nation as two weeks I returned, reaching home at 1 in the | shameless blackguards and scoundrels; and never, morning. I had hardly got into bed before we imagine, forgot the respect due to their own there was a ring at the door bell. I looked out, manhood so far as to advert to the arguments of sy to arrest the manager of the hospital, but he J. K., and Kungo of the Grand Lodge of Elautorius and there was Gunn, with another person! He | a gray-headed old man from whom they dissented asked me if Max Adler was at home. I said I as "the piping and whining of imbecile and un-

dian Nation. A Chocktaw Indian having committed as it is agreeable, interesting and profitable. a willful murder, was arrested, tried and sentenced to be shot. He asked for twenty days in which to prepare and visit his friends, giving his word of honor as a "brave" to return at the appointed time, and the expiration of twenty days according to appointmest, the hour of execution arrived, and the Indian, true to his word at the very hour and minute galloped up in company with three of his sisters and three brothers to the place where the sentence was to be carried out, all appearing as cheerful as though they had come to a frolic. The coffin was then brought on the ground, when some one remarked that it was too small, upon which the brothers of the doomed man advised him to lie down in it to see if it was the proper size, which he cheerfully did and laughing said "It fits all right." The crowd in the meanwalle appeared to be in the most cheerful spirits, and cracked jokes and laughed. At last, when all was ready, the doomed man was told to sit on the ground when a handkerchief was placed over his eyes by one of his sisters. The sheriff held one band while one of the brothers held the other; the deputy sheriff then stood up in an old house about ten steps in front of the condemned with a rifle, but from some cause the rifle went off accidentally, the bullet passing up through the roof of the The Indian, believing he was shot, drew with spittle and powder over the Indian's heart by his brother, while the deputy sheriff releaded his didn't it?" rifie, and at a given signal took aim and fired, piercing the centre of the mark. The Indian, with a few still holding his hands. No one seemed the least thing and ride while he is plowing." effected but the mother of the doomed man, who after shedding some tears was told by one of her sons to "shut up," that all was over.

A PLANT THAT IS REPORTED TO CURE CANCER .-The Washington correspondent of the Baltimore Gazette writes to that paper: "Some months ago Colonel Capron, Commissioner of Agriculture, reof a shrub or tree called Cunderango, which is found | morning. growing is shundance in Ecuador, and it is believed also in other South American States. Cunderange was presented as a specific for that heretofore supposed to be incurable and deadly disease, cancer. The Commissioner distributed this plant among our eading medical professors and physicians. One of these, Dr. B. W. Bliss, has been applying Cunderan with extraordinary and unlooked-for success, and in twenty days he has almost entirely cured the mothe of Vice President Colfax and other patients who are afflicted with cancer. A Boston physician of eminence, whose wife is afflicted with cancer, sends for the Cunderange, and orders from medical men in New York have been received, but it is exhausted except what is necessary for patients of Dr. Bliss now using it. Dr. Keene, partner of Dr. Bliss, has salled for South America to obtain an invoice of Cunderango immediately and forward it to this city," and to make himself acquainted with the history and peculiarities of the plant. The commissioner of agriculture has sent the root to various portions of the United States where the climate is favarable for
